HANNIBAL JOURNAL.

THURSDAY, SEPTEMBER 9, 1852.

NEWSPAPER POSTAGE.—The Senate has amended the new Post Office bill. Three-centes is to be the maximum of newspapers, one cent universal postage. Newspapers of one and a half cents are to circulate in the State at half price. Newspapers transient, unless prepaid, will pay double rates of postage.

FIRE AT HUNTSVILLE, MO.—A destructive fire occurred in Huntsville on the 30th ult.—The following houses were entirely destroyed: The Randolph House, valued at \$4,000; the drug and grocery store of Messrs. Wight and Head, a bake shop kept by two Germans; hat-shop of R. P. Curren; a gunsmith shop owned and occupied by J. F. Riley was torn down to arrest the progress of the flames. A considerable amount of property was damaged by water, breakage &c. The total loss was near \$10,000. The fire originated in the kitchen of the Randolph House.

The Superintendent of the Illinois Central Railway has advertised for 10,000 men to work on that road.

A German, last Sunday evening, struck a boy, connected with the Messenger office, in the face. The assaulted party attempted to stab the German, but did him no injury, except a small cut on the arm. The German was fined six dollars and forty cents.

A negro belonging to Capt. A. S. Roberts stabbeth another belonging to Mr. J. May, last Sunday. The woman is not very serious.

Bloomers.

Some fifteen or twenty fine young ladies of Boston have hired a house in the neighborhood of the White Mountains, where they are keeping "Bachelor's Hall." They wear the Bloomer costume, and spend their time in hunting and fishing.

THE LEGISLATURE.—In the House, on the 8th, after the 47th ballot, a resolution was adopted, declaring Dr. Shelby, the Speaker pro tem., Speaker during the extra session.

ORIGINAL AND GENUINE VOLCANIC OIL LINIMENT.

This Liniment was first introduced into the United States by G. W. WESTBROOK, prepared from the recipe of a celebrated Italian physician by the name of Rusconi, who had spent many years in scientific experiments with various products of nature, in order to produce an external remedy for a variety of disorders, such as Rheumatism, Ulcers, Scrofulous Sores, Tetter, King's Evil and Cancer, Sciatica, Lead, and other heretic, ill-natured and constitutional diseases that had usually been treated (though unsuccessfully) with internal remedies. His experiments with the Naphthaline Liniment of Bangor and Bark, were so successful that he was induced to make the basis of his Liniment, and he it was who first gave it the name of "Volcanic Oil." On applying the recipe for the Mexican Mustang Liniment we find that the same material under a name of "Pedro," formed the basis of its composition. In combining the two recipes, and introducing other ingredients that science and experience had tested, the best external remedy has been produced that earthly materials afford—for reducing pain almost instantly—for subduing inflammation, and healing sores or wounds of every description.

As a further proof of what we have said in regard to the Volcanic Liniment, please read the following statement:

CINCINNATI, Aug. 9, 1852.
